Publications

Sparsity-Driven Plasticity in Multi-Task Reinforcement Learning

July, 2025

Aleksandar Todorov, J. Cardenas-Cartagena, R. F. Cunha, M. Zullich, M. Sabatelli

[Paper](#) [Code](#)

Transactions on Machine Learning Research (TMLR)

On The Presence of Double-Descent in Deep Reinforcement Learning

November, 2025

Viktor Veselý, **Aleksandar Todorov**, Matthia Sabatelli

[Paper](#)

NLDL 2026 Abstracts

Experience

AI Engineer, DataNorth

Groningen, the Netherlands

Mar 2025 – Current

- **American Express Card Validation:** Custom client solution for a large-scale computer vision system to automate quality inspection of personalized cards, detecting manufacturing abnormalities, and reducing manual validation efforts.
- **NVWA Document Automation:** Custom client end-to-end pipeline to process hand-written documents – OCR engine, scalable API, web/mobile frontend, deployed as infrastructure as code, reducing inspection time from 1 hour to ~ 10 minutes.

Teaching Assistant, University of Groningen

Groningen, the Netherlands

Sept 2023 - Current

- Recipient of the Teaching Assistant of the Year Award 2025.
- Multiple courses (10+) taught at both undergraduate and graduate levels, in the fields of optimization, (advanced) machine and reinforcement learning, AI engineering, signal processing, linguistics, and natural language processing.

Education

MSc University of Groningen, Artificial Intelligence & Applied Mathematics

Groningen, the Netherlands

- Research focus on optimization, continual and reinforcement learning.

Sept 2025 - Current

BSc University of Groningen, Artificial Intelligence & Applied Mathematics

Groningen, the Netherlands

- GPA: 9.3 / 10, Summa Cum Laude

Sept 2022 – Aug 2025

Technologies

AI & Data Science: Numpy, Sci-kit Learn, Pandas, PyMC, PyTorch, Jax, HuggingFace (LLM fine-tuning), OpenCV, OCR, NLP (Document Understanding).

DevOps & MLOps: Azure, Docker, Git, Terraform, MLflow

Languages & Databases: Python, C#, SQL, JavaScript, HTML, CSS, MySQL, MSSQL.

Frameworks: .NET (ASP.NET), Entity Framework, React, Next.js, TypeScript (T3 Stack).

Personal Interests: Scalable System Design, Continual, Meta, and Reinforcement Learning, Statistics, Optimization.

Language Skills

Bulgarian (Native), **English** (C2 Proficient), **Dutch** (B1 Intermediate), **German** (A2 Basic).
