Publications

Sparsity-Driven Plasticity in Multi-Task Reinforcement Learning

July, 2025

Aleksandar Todorov, J. Cardenas-Cartagena, R. F. Cunha, M. Zullich, M. Sabatelli

[Paper](#) [Code](#)

Transactions on Machine Learning Research (TMLR)

Experience

Visiting Research Scholar, KU Leuven

Leuven, Belgium

- **Research Scholar** for the summer in KU Leuven for collaborating on a continual learning project in the machine learning group of Prof. Tinne Tuytelaars.

July 2026 - August 2026

AI Engineer, DataNorth

Groningen, the Netherlands

- Co-led a 4-5 person team to build and deploy two end-to-end automation systems:
 - A large-scale computer vision quality inspection pipeline for personalized credit cards that detects abnormalities and reduces manual validation.
 - OCR-based handwritten document processing platform with a scalable API and web and mobile frontends deployed via infrastructure as code, reducing manual inspection time from 1 hour to ~10 minutes.

Mar 2025 – Current

Teaching Assistant, University of Groningen

Groningen, the Netherlands

- Recipient of the Teaching Assistant of the Year Award 2025.
- Multiple courses (10+) taught at both undergraduate and graduate levels, in the fields of optimization, machine and reinforcement learning, AI engineering, signal processing, linguistics, and natural language processing.

Sept 2023 - Current

Education

MSc University of Groningen, Artificial Intelligence & Applied Mathematics

Groningen, the Netherlands

- Current GPA: 9.5 / 10

Sept 2025 - Current

BSc University of Groningen, Artificial Intelligence & Applied Mathematics

Groningen, the Netherlands

- GPA: 9.3 / 10, Summa Cum Laude

Sept 2022 – Aug 2025

Technologies

AI & Data Science: Numpy, Sci-kit Learn, Pandas, PyTorch, Jax, HuggingFace (LLM fine-tuning), OpenCV, OCR, NLP (Document Understanding).

DevOps & MLOps: Azure, Docker, Git, Terraform, MLflow

Languages & Databases: Python, C#, SQL, JavaScript, HTML, CSS, MySQL.

Frameworks: React, Next.js, TypeScript (T3 Stack).

Personal Interests: Scalable System Design, Continual, Meta, and Reinforcement Learning, Statistics, Optimization.

Language Skills

Bulgarian (Native), **English** (C2 Proficient), **Dutch** (B1 Intermediate), **German** (A2 Basic).
