Publications

Learning in Low-Dimensional Subspaces: Orthogonal Bottlenecks for Reinforcement Learning

August, 2026
[Paper](#)

Aleksandar Todorov, M. Sabatelli

Reinforcement Learning Conference (RLC)

Parametric Open Source Games

July, 2026
[Paper](#)

Aleksandar Todorov, J. ten Napel, A. Müller

ICML Workshop New Frontiers in Game-Theoretic Learning (NExT-Game@ICML)

Sparsity-Driven Plasticity in Multi-Task Reinforcement Learning

July, 2025
[Paper](#)

Aleksandar Todorov, J. Cardenas-Cartagena, R. F. Cunha, M. Zulloch, M. Sabatelli

Transactions on Machine Learning Research (TMLR)

Experience

Visiting Research Scholar, KU Leuven

Leuven, Belgium
July 2026 - August 2026

- Conducting a research project on optimization in continual learning, hosted by the machine learning group of Tinne Tuytelaars and supervised by Gido van de Ven.

AI Engineer, DataNorth

Groningen, the Netherlands
Mar 2025 – Current

- Developed and deployed AI systems for industrial computer vision and document understanding, including quality inspection for personalized credit cards and OCR-based processing of handwritten documents.

Teaching Assistant, University of Groningen

Groningen, the Netherlands
Sept 2023 - Current

- Recipient of the Teaching Assistant of the Year Award 2025.
- Multiple courses (10+) taught at both undergraduate and graduate levels, in the fields of optimization, machine and reinforcement learning, AI engineering, signal processing, linguistics, and natural language processing.

Education

MSc University of Groningen, Artificial Intelligence & Applied Mathematics

Groningen, the Netherlands
Sept 2025 - Current

- Current GPA: 9.6 / 10

BSc University of Groningen, Artificial Intelligence

Groningen, the Netherlands
Sept 2022 – Aug 2025

- GPA: 9.3 / 10, Summa Cum Laude

Skills and Interests

Research Interests: Continual, Meta, and Reinforcement Learning, Statistics, Optimization.

Machine Learning and Data Science: PyTorch, JAX, NumPy, HuggingFace, OpenCV, OCR & Document Understanding.

DevOps and MLOps: Azure, Docker, Git, Terraform, MLflow.

Programming, Databases & Frameworks: Python, C#, JavaScript, MySQL, React, Next.js, TypeScript (T3 Stack).

Natural Languages: Bulgarian (Native), English (C2 Proficient), Dutch (B2 Upper Intermediate), German (A2 Basic).
